Sept 11 Wed. Ch. stayed in camp de do Dume
further while we went to see Coroca. guide took us to
Moximba - one clicking Cor. was with them - see land picture
drive back then down winding gorges - then climbing over
pans footpath - snake trails - "little big far" meant
45 min hard walk to get $\frac{1}{2}$ way where we could see
(see stereo) village other side lake. Decided to
visit there on way out as too dark by time we could
get there today - Ch. & Heine stayed on dunes till 1³⁰
A.M. got 12 transparent ghekkis!!

Sept 12 Thurs.

Left camp at 8³⁰ to try to get to the
higher dunes inland. Drove^s about 10 mi.
over flat plateau with enormous plain
(sand + salt) on our right, then dropped down
to river. Tracks turned W. we kept on 5
& got stuck about 2 miles. Decided
going too heavy unless deflate tires - too
old to do that so went back & followed
track W to Point Albion (White Point)
Lighthouse - Charles found "wonderful" -

which takes 3 hrs fast jeeping to
Baie de Tiges, ~~it~~ has only 4 hrs when tide
is low enough - so 1 hour of trouble is
had. Many jeeps/yr get stuck - men
go with ropes & haul them out - sometimes
lost. Baie de T. is 4-5 more hours to C. mouth
Other road is 5. then nets. then W. 2-13 days
rough but much easier. Sitting in cafe
Dodge 7³⁰ P.M. Back from trip - dinner of 30 fishes
being cooked. (Nobody buys fish in P. Alex) While
Charles puts his large haul of beetles in his tinco-

fairly nice in Air -

We breakfasted & got away at 7³⁰ to bottom of
yesterday's road down canyon. ~~to Mesquitas~~

Packed to return but going to stop at bottom of
canyon in Curaca & see if can get at Clickers.

Camp on flat where stars can stopped yesterday.

Charles started collecting while we made lunch.

Soon after arrived saw native boy start down
trail we had come then run back over hills.

When finished lunch man appeared over some
hills, glimpsed him now & then as came toward us.

was carrying 7 meales. As a starter Eric asked
him how much for meales - 1 anplace each!

we said no. Asked him about Click people - pointed in
direction we were shown yesterday. Charles thought
we ought to buy his meales - we did. How far to

Clickers - very far. Much talk by Stephano -

If we went with man now could get back by sundown
- started. man looked at us ^{all time} very suspiciously. Fast

walk along yesterday's trail. past hill where we had
stopped. past many vegetable patches. across $\frac{1}{2}$ mi. of

Curaca river bed. soft sand deep. Guide stopped in
clump of heavy vegetation - said man had died in

village - not yet buried - said he would be in trouble
for bringing us here - looked very suspiciously at us.

He was wearing heavy revolver & shorts - Eric had asked

him on way over if there were any pretty stones - No -
He disappeared thru bush. Time went on - occasional
glimpses of figures other side of bush - Steph. wanted
to go & fetch him - $\frac{8.40}{9.30}$ said we should have kept him
with us - Eva to H. come along back. I don't like
this - Started - I stayed - Then ? O well I'll wait.
J. ~~stay~~ go if wish. No - Steph. went ^{to village} soon fetched
Guide & 2 men & 3 women. Guide said could
take pictures. but he expected money. I asked
about going to village No - everyone afraid -
no white men ever had been there. I took
out camera - everyone stiffened - all in European
clothes. Took pictures - Other villages around -
Steph. said was corpse there. Guide was not
from that village & people whose picture we took
were not either - all said it was not village of fishers
Thought it was probable escaped animals were
there - also funeral - made it wrong for us to
intrude - returned. Cold wind in evening - Charles
got lots fine bottles - Beds in lee of truck - soon
wind died & clouds mosquitoes - No sleep for anyone -
Repellent may have kept some off - but their chorus
was deafening.
