Saturday 15 from 19am

The women refused to go home. They made up kind of excuse. I had to take 2 lions to persuade them. I finally tried frightening them with the lions. They said they would go in the morning.

The afternoon was taken up with 1 gas saying his "wife" was supposed to be given food, was not getting it. I had a talk with him & returned and the girl's parents and the girl, to say she was too young to stay here. It was agreed by all that she is too young.

There was a dance again. Lasted on till 11, John recorded. Being Saturday night the staff having had wine - they could not come to the dance. except Philip & Doro who did not drink their wine. Ti! Huga & Guse & Dan started it, not the women. I gave Qi! gas some to dance. Qui Neander cured a few half hearted. Some of the dancing was good. Qi! gas gas Naisi! & goma did not dance.

Decision - It has been decided to move away from Gantscha + to set up at cigarette. One worry I had since last January is now over. From cigarette we might be able to get out. Dr. Kuselike advises this. Dr. Schoke too + claud McDutys had before we left Windhoek in July. We shall move at once, on our return from Windhoek. Might be there for Christmas.

Monday Dec 8.

All day travelling from Chasia to Grootfontein. Arrived 8 pm. Rained. I miserably with nausea + pain in the tummy. And Hotel. Mr. + Mrs. Smit glad to see us.

Tuesday Dec 9 -

At breakfast at the road house Dr. Schoke called on us. He said he had practically forced Charlie to take the plans out because he feared it might be meningitis the people had - + that we were in danger. He is much relieved to know we are going out to cigarette + may come to visit us there in Feb. If he comes we will perform the experiment of the poison rope the. He will believe when he sees an ambulance die that we ourselves have poisoned.

Philip got news from his relatives here that he has a new baby son. It turned out to be a daughter. Eliz. + I are planning a big Christmas for the camp.

The Dodge is falling to pieces. It makes noise plummies. Has a broken spring. I was uneasy yesterday lest we break down. Neither Lawrence nor Carl are mechanics. They would listen to the noise. Have no idea what to do + just go on.

Dr. + Mrs. Schoke have opened a store. We met Mrs. Kemp who with her husband lived 9 years at Karakawisa. And who speaks Bushman. Hoped she might be a great help. But don't think she will. She has a cafe. She says Bushmen have no
