Saturday 15 from Igam

The women refused to go home. They made weep kind of excuse. I had to take 2 lions to persuade them. I finally tried frightening them with the lions. They said they would go in the morning.

The afternoon was taken up with Igam saying his "wife" was supposed to be given food; was not getting it. I had a talk with him & returned and the girl's parents and the girl, to say she was too young to stay here. It was agreed by all that she is too young.

There was a dance again. Lasted me till 11. John recorded. Being Saturday night the staff having had wine - they could not come to the dance. except Philip & David who did not drink their wine. Ti! Huga & I Guse I Gan started it, not the women. Igam half hearted. Some of the dancing was good. Qi! gae gao Naisi! & goma did not dance.

Cease keeping a diary - Journal separate. They mingle too much.

Sunday 16

The women from Igam left as promised. Fgoma !ti I gase Dorna went too - to Nama to get some things they left there. The women made friendly protestations - saying I was intelligent and good hearted and I K huga said if she were a white woman she would be my friend. Decision - It has been decided to move away from Gaultscha + to set up at cigarette. One worry Jim had since last January is now over. From cigarette we might be able to get out! Dr. Kuselike advises this. Dr. Schoke too + Claude McDutty had before we left Windhoek in July. We shall move at once, on our return from Windhoek. Might be there for Christmas.

Monday Dec 8.

All day travelling from Chasis to Grootfontein. Arrived 8 pm. Rained. I miserably with nausea + pain in the tummy. No hotel. Mr. + Mrs. Smit glad to see us.

Tuesday Dec 9 -

At breakfast at the road hotel Dr. Schoke called on us. He said he had practically forced Charlie to take the plane out because he feared it might be meningitis the people had - + that we were in danger. He is much relieved to know we are going out to cigarette + May come to visit us there in Feb. If he comes we will perform the experiment of the poison together. He will believe when he sees an ambulance die that we ourselves have poisoned.

Philip got news from his relatives here that he has a new baby son. It turns out to be a daughter. Eliza + I are planning a big Christmas for the camp.

The Dodge is falling to pieces. It makes noises plummies. Has a broken spring. I was uneasy yesterday lest we break down. Neither Lawrence nor Carl are mechanics. They would listen to the noise. Have no idea what to do + just go on.

Dr. + Mrs. Schoke have opened a store.

We met Mrs. Kemp who with her husband lived 9 years at Karakawisa. And who speaks Bushman. Hoped she might be a great help. But don't think she will. She has a cafe. She says Bushman have no
