Ques. Why is grandchild named for grand parent? The old custom was that - so they follow it.

Green - If there are 4 qaos in a group how do they know which one is being spoken of?

even if we have 5 / guys we call qui - they all must look then you say which you want.

Law? they say this is the law:		
1st son for man's father	19asa	Tam
1st dau. " " Mother	gusa	Xama
2nd son " wife's Mother's brother		Elder first, or younger if no elder bro.
2nd dau. " Man's sister		youngest sister 1st
3rd son " Mother's brother		{ 2nd brother - if she has no 2nd brother then for the brother's son
3rd dau " wife Mother		
4th son " Man's brother (toin dtsu)		
4th dau " Man's Mother		

If mother of child had no brother whom would 2nd son be named for?
 mi Khom's name would be used.
 Check this — mi Khom could be any no, many names.

Could they give a reason for this law? No. They do not know the reason. It is a law.

They do not name a child to honor someone.

Gashed. Saying some people believe that the spirit of the ^{dead} ancestor comes into the child who is named for him. They say that they believe this. Could Tam tell me anything about this. She does not know. This is poor ethnology. Getting these matters out by gushing. But how else? Tam and 1900 are not paying close attention. Any way they do not understand the questions. The spirit will stay in the child till he dies. is the ans. Evidently other idea is non-existent, as we would expect.

Where does a spirit go when someone dies? Tam laughed. People who died before take the spirit with them.

1 No term for the relationship as such. The man would be termed by ego according to his name. If ego could joke with him ego would call the boy !guma - if he could not joke, Tsuma if he called the man !go (he could joke) and would call the boy Tsi

2 This would not be the father of the boy but also the brother, as a man never names a son for himself.

Name - Note

A person other than the father may give a name
!u named her y. bro d. #goma for her husband
Xama's sister named Iqao, her bro's dau.
#Goma received a second name Iqao for a man
who said to his father "let us give you
son my name so we will have a relationship
on the name."

As bet. brother sons which to call Tsuna Tona
or tsi. !u would know which she could
join with, on account of whom he was

It is NOT that a sister's sons are called in order
Tsuna Tona tsi (WS.) but !u calls both
Di'di's sons Tsuna.

!Qui. If Iqao's bro qao had a son named for qao's fa.
!qui would call that son #Tum i.e. tum for

a son for qao.

!guse calls !naisi #Tum because her husband's

!qui would call qao's 1st dau !u Tsuna

Reasons to check

1 qai a father's sister (tam 11ga by ego)
would name a son for her brother is ego's father
ego would call that son 1 guma

1 qai a 3rd son of a y. bro would be a Tsama because
he would be given the name of his mother's people.
i.e. his mother's father. i.e. the son's mother's father.

1 qai di 1 guma - so called because she will
have the name of the father's mother
di refers to female
cf. dai = mother. father's
Toma - the term goes with Mother's mother's mother
when used for ego's daughter
the child's grand mother's

1 1 gama - a woman addresses a y. girl as 11 gama
1 guma a man does not use. Toma takes place
Note - Man's name is never a woman's name

qai a 1 X Xc = named for - is related

Precedence

'An dai over a 11 ga. of # goma Jan 17
and over Toma of " " "
Dan of a !gu!na is a 11 ga does not matter what the name is
Some are named for ego's mo. ms is 11 ga. This takes
precedence over another name relationship.

All !gi!gases are !gu!nas to # goma. His parents told
him he had a !gu!na named 9.9. So he
called his fa's bro's son 99 !gu!na
Though the boy was son of # goma's Tsa
& might be !guma Tsuna or Tsi.

Elder sister of # goma's mo. was !nai. He calls !nai 11 ga
Now !nai's fa. was # goma i.e. his mo's fa. too.
He was named for this # goma who was his !gu!na
So he calls !nai's dau Ban Ton. i.e. Ban's mo's fa. was
goma. on goma's gu!na, & her !gu!na They have the
same !gu!na Is this the reason?
Note goma said Ban's were 12 Tsunas

~~!gu!na was Tsa~~

Marriage relationships over kin.

11 guse calls !nai si son of !qui's e sis. # Tum
because !nai si's her her. fa. Otherwise
she wld call him Tsuna Toma Tsi

v

When there are two terms that might be used
on what principal is the choice made?

In case of marriage

Tsuma. If she is a Tsuma & ^{he} marries her sister
it changed to Toma.

!gu!na Is changed to #tum if that is
the appropriate term after marriage.

!gu!na is changed to Tuniga if
that is the app. term after marriage

Example ~~Someone~~ here named #goma was
his !gu!na. Now that #goma is married
to a n this goma is his Tuniga - so
he changed term to Tuniga.

Ques

If there is you have a Ton named !Huga and
a sister named !Huga what would yr
term after !Hugas

Why does !gunda call gau #tum
is son of #goma. gau is in Mo. e. s. is her.
Term is her for that is Thi'ga

Did #gomas as !gu!na. If goma had a ho 99
would he call him 190 or !gu!na?

Did #goma's sis unka call her grand father Tsum
why? she was named for goma's fa. ho. wife
qui's wife.

Toma

||guse calls |qui son |gao music Toma
|qui .. him |guma. Toma is use. in this relationship
(|qui ma is son |qui'na's & sis's son.
" " " " " |gao music.)

Q Toma is a person you meet then (!)

Bau dau |q'i'gae is a Toma to = goma. He could mean her

Q Tsu would name a dau. for his mother

a Tsu's mo wld be ego's Ton
a Tsu's dau Toma

goma has a second name |gao given by a 1940
who wanted his father to name him |gao so they
would be related by the name. So this |gao's wife
is = goma's |ga'na His wife was = goma's Ton. Her
name was |gasa. So he calls his fa's bro's dau's
dau Toma.

= goma calls Khova Toma. Khova is Di||khaa'-
dau Di||khaa is |g'i's ||ga ie She is dau of |qui's
ie goma's fa bro. She was named in Di||khaa
gome's mo. So is his ||ga. ~~Di||khaa~~ was named
in her father. ~~Di ||khaa's fa's bro's wife~~
~~Di ||khaa~~ was some mo named in mo's mo's ||ga
Di ||khaa named her dau Khova in her
her 2nd tsu ie her fa bro wife. ie goma's mother
a goma's T.M. So Khova is |g's Toma

for fa-fa. Not otherwise interchangeable. by preference
Seems to take place of !gu'na in women.

!guse calls husband of Kholko Tun'ga
K. is a sis, !guse's hu. !qui. Her hu was !qui
if his name had not been !qui !guse would
have called him #tum

Women do say !gu'na when not speaking strictly.

Tsi

MS. Iqui Neander - ^{bro of Iquese. qui's wife} If I give Iqui's wife & bro, named
a son for his & sis her Iquka, he would
call that son Tsi. He called Iquka Igo because
qui = Iquka married sister

gan^{no} could call + geo son of Iquese. Iqui Tsi

‡ Goma's father's elder brothers

Tsu. would have been named for.

‡ Goma does not know whom he was named for. ‡ Goma was told by his parents this is your Tsu.

‡ Goma himself was named for his mother's father
 so he the first son. 2nd son
 1st had same name as his - i.e. ‡ Goma
 May a 1st son be named for wife's father
 but this is unusual.

May ^{sons} children be named for the
^{husband's} father's mother's brothers
 mostly they do not name sons
 for father's elder brother. Nor
 for his mother's elder brothers
 but would name for father's younger brother
 and for mother's younger brother
 why? Because the sons of his father's
 elder brother are to name their
 sons for their father's ^{2^d} brother who is ‡ Goma

Continued. p p X1 (X2)

goma's father's e. bro is Iqui
 Iqui's sons will name their
 sons for Iqui. That is why
 he does not give the name
 Iqui to his sons. That is
 why he names for his father's
 y. brother. ^{Ques. Because} Too many of same
 name in 1 generation? +goma said
 that might be.

Ques. Is there any idea of a right to a name.
 # goma says his father had the ^{Tsamgao}
 authority (ie his father is y. bro of Iqui)
 to say who should be named what
 in his own family. Would Iqui
 have any authority over Tsamgao
 as to what names Tsamgao could use.
 Iqui can refuse if Tsamgao wants
 to name Iqui's son for Tsamgao's name.
 He has no authority over what
 Tsamgao names his own sons.

What & desirable to a name.
 Is it desirable to have same name as someone?
